

2024 ACHIEVEMENTS

2025 MILESTONES

2026 INITIATIVES

2024-2025 WINS

-  **50% Reduction** in last-mile emissions (755 tCO₂e avoided)
-  **14% Reduction** in mid-mile emissions
-  **36% reduction** in emissions via waste diversion & recycling (~450tCO₂e)
-  **32% reduction in Scope 1 & 2** emission intensity per 1,000 parcels
-  **3rd Consecutive Year of GHG Inventory Reporting** - completed 3rd year of company wide greenhouse gas verification, reinforcing transparency and accountability across operations.
-  **Green Delivery Transparency** with clients & FleetOptics Tracking page

WHY IT MATTERS

Our clients trust FleetOptics to move their products with precision. Sustainability is essential to delivering that promise at scale. Every operational improvement that lowers our footprint strengthens our clients' supply chains — and supports a more sustainable future for Canadian commerce.

SUSTAINABILITY INITIATIVES

Carbon Management Program → Annual GHG inventories since 2021, full Scope 1, 2 & 3 reporting.

Green Delivery Zones → Expanding 100% green FSAs using **ELECTRICAL VEHICLES**.

Zero-Waste Operations → Waste diversion programs (shrink wrap recycling, reusable parcel totes & gaylords) → 40 tons diverted from landfill.

Client-Level Carbon Reporting → Shipment-level CO₂ insights supporting client ESG goals.
